SAHARA MOTORS DUBAI

The 2026 Toyota Prado Urban 2.8L Diesel 7-Seater 4WD Automatic is engineered to combine strong performance, comfort, practicality, and dependable off-road capability. It is powered by a 2.8L 4-cylinder 16V DOHC diesel turbo engine producing 201 HP at 3000–3400 RPM and 51 KGM of torque. An 8-speed automatic transmission with 2nd Start and full-time 4WD provide controlled performance across city streets, highways, and demanding terrain. The Prado Urban also features a centre differential lock, VSC, A-TRC, ABS, BA, ESS, BHS, and EBD for improved control. With seating for seven, dual fuel tanks totaling 110 litres, and 245/70 R18 alloy tyres, this SUV is well suited to family journeys, daily driving, and outdoor adventures and long-distance travel needs.

Inside, the Prado Urban offers a practical cabin focused on comfort and everyday convenience. Fabric seats provide a durable interior, while dual automatic air conditioning for the front and rear helps maintain a comfortable environment throughout the cabin. A 7-inch TFT speedometer keeps key driving information accessible, while the tilt and telescopic steering column with urethane control steering wheel supports convenient operation. The cabin also includes manual front seats, electric parking brake, electric power steering, smart entry with push start, cruise control, rear console box, luggage tray, and USB charging. Entertainment is handled by an 8-inch display audio system with six speakers, Bluetooth, AM/FM, USB, Android Auto, and Apple CarPlay for convenient device integration seamlessly.

The exterior gives the 2026 Toyota Prado Urban a confident and practical appearance, featuring 18-inch alloy wheels, LED headlamps with circular design and Daytime Running Lights, static automatic headlamp levelling, and LED front and rear fog lamps. Black front and rear bumpers, bumper guard, hood moulding, overfender moulding, grille, door handles, and back door garnish add functional styling details. Safety equipment includes driver and passenger airbags, parking support alert with obstacle braking, front and rear parking sensors, a rear-view camera with washer, tyre inflation pressure warning, child restraint system, and anti-theft engine immobilizer. Additional convenience comes from power auto-retractable mirrors, power windows with jam protection, LED rear combination lamps, rear window defogger, side steps, and towing hooks.

A close-up photograph of a car's interior dashboard area, specifically the controls on the left side of the steering wheel. Two red arrows point from text boxes to specific controls. The first arrow points to a button with a car icon and a star, labeled 'PRE COLLISION SYSTEM ON / OFF SWITCH'. The second arrow points to a rotary dial with a sun icon, labeled 'INSTRUMENT PANEL BRIGHTNESS CONTROL'. Below these are several other buttons and a gear shift lever.
