SAHARA MOTORS DUBAI

The 2026 Toyota Land Cruiser GXR-3 3.5L is a powerful seven-seater SUV that combines twin-turbo performance, full-time four-wheel-drive capability, premium equipment, and advanced safety features. Powered by a 3.5L V6 twin-turbo petrol engine, it produces 409 HP and 650 N.M. of torque. The 10-speed automatic transmission with sequential mode delivers smooth and responsive power, while full-time 4WD with a high/low transfer case, central and rear differential locks, VSC, A-TRC, ABS with Brake Assist, HAC, DAC, and TSC provide enhanced control and traction across different driving conditions. With a 110-liter fuel tank and stated fuel consumption of 10.1 km/L, the Land Cruiser GXR-3 is suited to both long-distance travel and demanding road conditions.

Inside, the 2026 Toyota Land Cruiser GXR-3 provides a practical seven-seat cabin with hi-fabric upholstery and premium features for everyday driving. The power-adjustable driver's seat, 7-inch digital meter, leather steering wheel with voice command controls, automatic front air conditioning with independent control, and automatic rear air conditioning provide comfort for occupants. The cabin also includes a 12.3-inch integrated display audio system with navigation, Apple CarPlay, six speakers, and USB ports across all three rows, along with illuminated scuff plates, front floor illumination, rear seat armrest with cup holders, illuminated vanity mirror, cool box, 220V power outlet, and smart entry for all doors. Three drive modes, remote engine starter, wireless charger, panoramic camera system, and moon roof further enhance convenience.

The exterior of the 2026 Toyota Land Cruiser GXR-3 combines a rugged SUV design with premium equipment, including 20-inch alloy wheels, 265/55R20 tyres, LED headlights with manual leveling, LED daytime running lights, LED front fog lamps, headlamp cleaner, and a chrome and silver-colored front radiator grille. Colored and powered outside mirrors with turn signal lamps, power retractable mirrors, colored door handles, chrome side molding, side steps with colored step covers, silver integrated roof rails, chrome rear bumper details, pintle hook, and rear spoiler complement its functional exterior design. Parking support brake, front and rear parking sensors, Toyota Safety Sense, multiple airbags, tire pressure monitoring, immobilizer and alarm, premium horn, luxury floor mats, 95 fuel sticker, built-in tire inflator, prayer mat, and safety package add further convenience and protection.
