**Elevating performance on every road, the LX features a twin-turbocharged V6 that produces 409 horsepower and 479 lb-ft of torque, making it the most powerful engine ever fitted to an LX. Paired with a standard 10-speed Direct-Shift automatic transmission, this all-new powertrain achieves incredible performance, economy, and the refinement worthy of this Lexus flagship.**

The LX adopts a future-focused strategy to support confident and safe driving, allowing drivers to enjoy the unadulterated driving pleasure of the flagship Lexus SUV. In order to actively aid driving, to help avoid collisions, and to help prevent accidents, it integrates and coordinates the functioning of modern safety technology. The Lexus Safety System Plus, which combines a Pre-Crash Safety System, LDA (Lane Departure Alert), and Dynamic Radar Cruise Control, is the focal point of these active driving control technologies. Moreover, the Multi-terrain Monitor provides additional inspections of the surroundings while parking, and the Blind Spot Monitor System detects vehicles in blind areas when changing lanes. This New 2023 model Lexus LX600 Prestige with 6 cylinder, 3.5L engine and Automatic transmission is available for sale at Sahara Motors Dubai.
