AWD-E 5-SEATER AT

Digital Latch with Safe Exit Assist

The Lexus RX350h's digital latch with safe exit assist feature is a safety system designed to detect and prevent potential hazards when passengers exit the vehicle. The system is activated when the vehicle is parked and the doors are unlocked. It employs a variety of sensors and algorithms to detect attempts by passengers to exit the vehicle into a potentially dangerous environment, such as oncoming traffic or a busy street. If a hazard is detected, the system will notify the passenger by sounding an alarm and flashing the hazard lights. If the passenger disregards the warning and attempts to open the door, the digital latch with safe exit assist will engage, preventing the door from fully opening. This feature assists in keeping the passenger safe inside the vehicle until it is safe to exit. Once the danger has passed, the passenger can safely exit the vehicle by pushing the door open, allowing the digital latch with safe exit assist to release and the door to fully open.

Wireless Apple Carplay

Wireless Apple CarPlay integration is a Lexus RX350h feature that allows drivers to wirelessly connect their iPhone to the car's infotainment system. This feature provides a variety of advantages, such as hands-free access to various apps and features while on the go. Drivers can use wireless Apple CarPlay to make phone calls, send and receive text messages, and access their music library without having to use their hands or take their eyes off the road. Access to navigation apps such as Apple Maps, which can provide real-time traffic updates and directions to their destination, is also enabled by the integration.

2023 MODEL LEXUS RX350H LUXURY 2.5L AWD-E 5-SEATER AT

MODEL CODE – AALH15L - CWXGBA

LEXUS HYBRID DRIVE

2.5 LITRE 4-CYLINDER DOHC 16-VALVE
