

LEXUS

RX500h

The 2023 Lexus RX 500h is powered by a 2.4-liter turbocharged four-cylinder engine (366 horsepower, 406 lb-ft torque), a six-speed automatic gearbox, and a dual-motor hybrid system with Lexus Direct4 all-wheel drive. This model also boasts a sport-tuned adaptive suspension, updated brakes, and a dynamic rear-wheel steering system that spins the rear wheels to improve low-speed agility or high-speed stability and handling. The goal of simulated engine and exhaust sound is to improve the driving experience.
