# SAHARA MOTORS GROUP

The 2025 Toyota Land Cruiser 71 Hardtop S-DLX is the ideal blend of rugged tradition and modern refinement. Built for serious explorers and utility-driven users, this 4x4 legend is powered by a durable 2.8L turbo diesel engine delivering 201 horsepower and 500 Nm of torque, paired with a smooth 6-speed automatic transmission. Whether it is harsh trails or long-distance hauls, its performance is both powerful and efficient with 11.7 km/L fuel economy. The compact, purposeful body is reinforced with LED headlamps, front and rear mudguards, over fenders, and a black front bumper, showcasing a bold, off-road-ready design. With practical additions like an electric winch, side steps, alloy wheels, and the iconic Land Cruiser heritage emblem, this model honours its legendary past while embracing the needs of today's adventurer.

Step inside the LC71 S-DLX and discover a cabin that is as functional as it is comfortable. With leather-trimmed seats, a leather-wrapped steering wheel, and wood grain accents, the interior offers an upscale feel without losing its utilitarian focus. The front separate seating layout ensures personal space, while features like a cool box, manual A/C, and carpet floor mats enhance comfort during long journeys. A 9-inch touchscreen display with Wireless Apple CarPlay, DAB radio, and USB-A and USB-C ports ensures you stay connected and entertained on the move. The Optitron speedometer with a 4.2-inch MID provides clear, essential driving information briefly. From cup holders to a telescopic steering wheel and centre console, every detail is designed to make your driving experience practical, organized, and enjoyable, whether you are commuting or crossing challenging terrain.

Safety and everyday convenience are core strengths of the Land Cruiser 71 S-DLX. This model comes equipped with Toyota Safety Sense, including Pre-Collision System, Lane Departure Alert, and Automatic High Beam, offering enhanced peace of mind. For tough off-road conditions, front and rear differential locks, Hill-Start Assist (HAC), and Downhill Assist Control (DAC) work together with Vehicle Stability Control (VSC) to maximize control and safety. The rearview camera, tire pressure warning system, and built-in tire inflator help prevent unexpected delays, while features like cruise control, remote central locking, power windows, and a rear LED cabin lamp add modern comfort. Front ventilated disc brakes, ABS, and EBD ensure responsive stopping power. This vehicle is engineered to protect and support the driver and passengers in every situation, making it the perfect choice for those who need a capable, reliable vehicle that delivers both performance and peace of mind.
