SAHARA MOTORS GROUP

The 2026 Toyota Hiace High Roof Bus DX is a purpose-built, no-nonsense passenger transporter designed for reliability, comfort, and low operating costs. Powered by a torquey 2.8-liter diesel engine mated to a manual transmission, this 13-seater delivers strong pulling power for fully loaded runs and good fuel economy for commercial use. Its high-roof configuration creates generous interior headroom and a light, airy cabin atmosphere, while practical seating layout and wide doors ensure easy boarding and disembarking for passengers and efficient loading of luggage or small cargo. The DX trim focuses on durability and value—featuring robust materials, straightforward controls, basic air conditioning, and essential safety equipment—making it easy to maintain and repair in fleet service. With a tough chassis and suspension tuned for carrying people, the Hiace High Roof Bus is well suited to shuttle services, school runs, tour operators, and rural transport, offering dependable daily performance, predictable handling, and long service life under regular maintenance.

The 2026 Toyota Hiace High Roof Bus DX is powered by a 2.8L 4-cylinder turbocharged diesel engine that produces a maximum output of 161 hp (120 kW) at 3600 rpm and a peak torque of 420 Nm available from 1600 to 2200 rpm. Power is sent to the rear wheels through a 6-speed manual transmission. The bus carries a 70 L fuel tank and has a gross vehicle weight of 3,710 kg on a 3,860 mm wheelbase, with overall dimensions of 5,915 mm long, 1,950 mm wide and 2,280 mm high; its minimum turning radius (with tires) is 6.4 m. Rolling on 16-inch steel wheels, the Hiace rides on 235/65R16C tires designed for load-carrying duty.

The 2026 Toyota Hiace High Roof Bus DX comes well equipped for practical passenger service, featuring halogen headlamps with headlamp leveling and a high-mounted stop lamp, plus an emergency glass roof exit. It seats 13 passengers including the driver on durable fabric seats with a manually adjustable driver's seat and steering wheel controls; the instrument cluster includes a 4.2-inch multi-information display and an 8-inch display audio touchscreen with Apple CarPlay, DAB radio, USB-A, and two speakers. Comfort and HVAC are handled by manual air conditioning with rear blower control and rear air vents, while conveniences include two 12-volt front power sockets, rubber flooring, front power windows, remote central door locking, an inside rearview mirror with back monitor, and illuminated foot step with a safety bar at the door step.
