SAHARA MOTORS DUBAI

The 2026 Toyota Land Cruiser GXR-1 3.5L is a powerful seven-seater SUV that combines strong twin-turbo performance, full-time four-wheel-drive capability, practical equipment, and essential safety features. Powered by a 3.5L V6 twin-turbo petrol engine, it produces 409 HP and 650 N.M. of torque. The 10-speed automatic transmission with sequential mode delivers smooth and responsive power, while full-time 4WD with a high/low transfer case, central and rear differential locks, VSC, A-TRC, ABS with Brake Assist, HAC, and TSC provide enhanced control and traction across different driving conditions. With a 110-liter fuel tank and stated fuel consumption of 10.1 km/L, the Land Cruiser GXR-1 is suited to both long-distance travel and demanding road conditions.

Inside, the 2026 Toyota Land Cruiser GXR-1 provides a practical seven-seat cabin with hi-fabric upholstery and convenient features for everyday driving. The power-adjustable driver's seat, 7-inch digital meter, leather steering wheel with voice command controls, automatic front air conditioning with independent control, and automatic rear air conditioning provide comfort for occupants. The cabin also includes an 8-inch integrated display audio system with Apple CarPlay and six speakers, along with a rear seat armrest with cup holders, illuminated vanity mirror, cool box, 220V power outlet, and smart entry for the front doors. Three drive modes, cruise control, rear camera, engine start/stop button, and an electrochromic inside rear-view mirror further enhance convenience.

The exterior of the 2026 Toyota Land Cruiser GXR-1 combines a rugged SUV design with practical equipment, including 18-inch alloy wheels, 265/65R18 tyres, LED headlights with manual leveling, LED daytime running lights, LED front fog lamps, and a chrome and silver-colored front radiator grille. Colored and powered outside mirrors with turn signal lamps, power retractable mirrors, colored door handles, side steps with colored step covers, a towing hitch with pintle hook, and a rear spoiler complement its functional exterior design. Parking support brake, front and rear parking sensors, multiple airbags, tire pressure monitoring, immobilizer, premium horn, Toyota-approved floor mats, 95 fuel sticker, tire inflator, and a safety pack add further convenience and protection. Measuring 5115 mm long, 1980 mm wide, and 1905 mm high, the Land Cruiser GXR-1 offers a commanding presence with seven-seat practicality and proven 4WD capability.
