SAHARA MOTORS DUBAI

The 2026 Toyota RAV4 Hybrid Adventure is powered by a 2.5L HEV 4-cylinder engine with a combined output of 239 HP. It uses an Electronic Continuously Variable Transmission (E-CVT) with AWD E-Four and Trail Mode. Drive Mode Select offers Eco, Normal and Sport settings, while the 55L fuel tank and 24.8 km/L fuel consumption make it suitable for everyday and long-distance driving. The RAV4 also features Hill-start Assist Control and Down Hill Assist Control for additional driving support.

Inside, the 5-seat cabin features Adventure-grade leather seats, heated front seats and a powered driver seat. A 12.3-inch Multi Information Display sits alongside a 10.5-inch Display Audio system with wired Apple CarPlay and six speakers. Automatic air conditioning provides independent driver and passenger control with rear A/C ducts. Other features include a moon roof, smart entry, push-start button, steering wheel controls, telescopic steering wheel, wireless charger, USB-C charging ports and a tonneau cover.

The RAV4 Hybrid Adventure features 18-inch matte grey metallic alloy wheels with 235/60R18 tyres, LED headlamps, LED front fog lamps, DRL, a rear spoiler and black auto-retractable side mirrors. Safety equipment includes Toyota Safety Sense 4.0 with Pre-Collision System, Lane Departure Alert, Dynamic Radar Cruise Control, Lane Tracing Assist, Adaptive High-Beam System, Road Sign Assist, Blind Spot Monitor and Rear Cross Traffic Alert. It also has a rear camera, four front and four rear parking sensors, ABS, Vehicle Stability Control, TPMS, driver and passenger airbags with knee, side and curtain airbags, Electric Parking Brake and Brake Hold.
