SAHARA MOTORS DUBAI

The 2026 Toyota Land Cruiser 71 LX-Z V6 4.0L is a rugged, five-seater SUV that combines off-road capability, durability, performance, and proven Toyota reliability. Powered by a 4.0L six-cylinder petrol engine with VVT-i, it produces 228 HP and 360 Nm of torque. The six-speed automatic transmission delivers smooth power, while the four-wheel-drive 4x4 system, front and rear differential locks, coil front suspension, leaf rear suspension, ventilated front disc brakes, and rear drum brakes provide dependable control in varied driving conditions. The Land Cruiser also features ABS, VSC, BA, EBD, HAC, A-TRC, DAC, and a tire pressure monitoring system for added confidence on demanding roads and trails.

Inside, the 2026 Toyota Land Cruiser 71 LX-Z offers a practical cabin for five occupants, with fabric and synthetic leather seating, separate front seats, air conditioning and heating, and a wood-and-leather steering wheel. The cabin features tilt and telescopic steering adjustment, a cool glove box, door bottle holders, sun visor mirrors, woodgrain paneling, and carpet floor mats. Two front USB chargers, a 9-inch display audio system with Apple CarPlay, Android Auto, USB, Bluetooth, and AM/FM provide connectivity and entertainment. Cruise control, keyless entry, power windows, remote central locking, digital clock, refrigerator, and rear camera add useful convenience for everyday travel and long journeys.

The exterior of the 2026 Toyota Land Cruiser 71 LX-Z combines a distinctive rugged appearance with practical equipment, including 265/70R16C tyres, a front bumper with winch moulding, LED circle headlamps with DRL, LED front fog lamps, and chrome power outer mirrors. Steel side steps, front and rear mudguards, towing hooks, sliding rear quarter glass, rear fog lamp, rear window defogger, and a lockable spare wheel carrier enhance its capability. Measuring 4970 mm long, 1800 mm wide, and 2180 mm high, with a 2730 mm wheelbase and 90-litre fuel tank, the Land Cruiser is designed for demanding journeys and challenging terrain. Toyota Safety Sense includes Auto High Beam, Pre-Collision System, and Lane Departure Alert, while airbags and engine immobilizer provide additional security.
