SAHARA MOTORS DUBAI

The 2026 Lexus LX600 VIP combines a 3.5L V6 twin-turbo engine with 409 HP and 650 Nm of torque from 2,000–3,600 RPM. It uses a 10-speed Direct-Shift automatic transmission with all-wheel drive and paddle shifters. The LX600 reaches a top speed of 210 km/h and has a combined fuel economy of 10.1 km/L. Its driving systems include Eco, Normal, Comfort, Sport S, Sport S+, and Custom modes, along with Multi-Terrain Select, Crawl/DAC, center differential lock, Active Height Control, Turn Assist, and Adaptive Suspension.

Inside, the 4-seat cabin combines genuine leather seats with comfort features. The driver seat has 10-way power adjustment with lumbar support, while the front passenger seat has 8-way power adjustment. Front and rear seats offer massage functions, while the front and second-row seats feature heating and ventilation. The cabin also includes 4-zone climate control, a cool box, 64-color ambient lighting, art wood interior trim, power tilt and telescopic steering with leather and wood finish, and manual rear side sunshades. The 12.3-inch digital instrument cluster works alongside a 12.3-inch Lexus Interface touchscreen with navigation and intelligent voice assistant. Wireless Apple CarPlay, wired Android Auto, Bluetooth, four USB-C ports, wireless charging, rear entertainment screens, and a 25-speaker Mark Levinson surround sound system add to the technology package.

The exterior features a sunroof with power tilt-slide operation, three Bi-LED headlights with Adaptive High Beam System, LED taillights, daytime running lights, rear fog lights, and headlight washers. Power-folding, auto-dimming side mirrors, rain-sensing wipers, and Lexus-logo scuff plates and courtesy lamps add convenience. Safety comes with Lexus Safety System+ 3, including a Pre-Collision System, emergency braking, adaptive cruise control, Lane Keep Assist, Lane Tracing Assist, Lane Departure Alert, Blind Spot Monitor, Rear Cross Traffic Alert, and Safe Exit Assist. The LX600 includes a 360° camera, front and rear parking sensors, parking assist, electronic parking brake, stability control, traction control, brake control, ABS, EBD, and tyre pressure monitoring.
