SAHARA MOTORS DUBAI

The 2026 Lexus GX550 Luxury+ is a premium full-size SUV that combines powerful performance, advanced capability, and refined comfort. Equipped with a 3.4-liter twin-turbo V6 engine, this SUV delivers 349 horsepower (257 kW) at 5200 RPM, while Variable Valve Timing with Intelligence and Active Noise Control enhance both performance and refinement. Paired with a 10-speed Direct Shift automatic transmission and all-wheel drive, the GX550 is engineered to provide confident performance across a wide range of driving conditions. Adaptive Variable Suspension, Drive Mode Select with five modes, a torque-sensing limited-slip differential, and a four-link rear suspension further enhance its capability and stability.

Comfort and convenience are at the forefront of the GX550's design. With seating for seven, the interior features premium semi-aniline leather seats, heated rear seats, power-adjustable front seats with lumbar support, and a heated leather-wrapped steering wheel with memory. The three-zone automatic climate control, dust and pollen deodorizing air filter, and panoramic moonroof with dimming feature keep passengers comfortable, while the 14-inch Lexus Interface HD touchscreen, 12.3-inch colour TFT multi-information display, wireless Apple CarPlay, wireless Android Auto, Bluetooth, and Lexus Assistant provide seamless connectivity. Luxury+ features such as a 21-speaker Mark Levinson premium audio system, head-up display, 64-colour ambient illumination, power folding third-row seats, power back door with kick sensor, digital key, and panoramic view monitor add further convenience and sophistication.

Safety is paramount in the 2026 GX550, which is equipped with a comprehensive suite of advanced safety and driver-assistance features. Ten airbags, including driver and passenger knee airbags, side and curtain airbags, and a front passenger seat cushion airbag, provide extensive occupant protection, while Vehicle Stability Control, Traction Control, ABS, Electronic Brake Force Distribution, Brake Assist, and Trailer Sway Control enhance confidence on the road. Advanced systems including the Pre-Collision System with pedestrian, bicycle and motorcycle detection, Dynamic Radar Cruise Control with Curve Speed Management, Lane Departure Alert with Steering Assist, Risk Avoidance Emergency Steer Assist, Emergency Driving Stop Support, Blind Spot Monitor with Rear Cross Traffic Alert, Front Cross Traffic Alert, Lane Change Assist, Traffic Jam Assist, Driver Monitor Camera, Rear Pedestrian Detection, and Intuitive Parking Assist with Auto Braking make the GX550 a sophisticated combination of luxury, technology, safety, and capability.
