SAHARA MOTORS DUBAI

The 2026 Toyota Fortuner E1 2.7L Petrol 4WD 7-Seater Automatic is a capable blend of performance, practicality, and everyday versatility, designed for family journeys and demanding adventures. Powered by a 2.7-liter four-cylinder, 16-valve DOHC EFI engine with Dual VVT-i, this SUV also delivers 164 horsepower and 25 kgm of torque for dependable performance across different driving conditions. Paired with a 6-speed automatic transmission and 4WD capability, the Fortuner offers confident control on highways and challenging terrain. Its double-wishbone front suspension and 4-link coil rear suspension provide balanced drive, while ventilated disc brakes support reliable stopping performance. The auto disconnect differential further enhances its drivetrain functionality.

Inside, the Fortuner accommodates seven people while providing features for comfort. The cabin includes automatic air conditioning and heating, an 8-inch display audio system with AM/FM, USB, Bluetooth, and six speakers, along with a multi-information TFT display. Cruise control, power steering, keyless entry, power door locks, and power windows with driver-side auto up/down and jam protection add convenience to every journey. A tyre pressure monitoring system, rear window defogger, tilt and telescopic steering wheel, and intermittent front and rear wipers provide functionality. The 60:40 second-row seats with tumble and slide functionality and the two-seat third row offer flexible space, while fabric upholstery, floor mats, and three 12V accessory connectors keep the cabin useful.

Safety is a key part of the 2026 Fortuner, with features for each journey. Airbags for the driver, front passenger, and driver's knee are complemented by ABS, stability control, hill-start assist, trailer stability control, and an emergency brake signal. Three-point seat belts with pretensioners and force limiters, ISOFIX anchors, and tether anchors provide protection, while the engine immobiliser and safety kit support security. Exterior equipment includes LED bi-beam headlamps with auto-levelling, LED rear combination lamps, rear fog lamps. Chrome handles, towing hooks, black side steps, a rear spoiler, and all-terrain 265/65 R17 steel wheels complete its rugged character with ease.

A close-up photograph of a car's interior control panel. The panel is black and features several buttons and a rotary knob. A red arrow points from the text 'SIDE MIRROR ADJUSTER' to a small rotary knob. Another red arrow points from 'CENTRAL LOCKING' to a button with a lock icon. A third red arrow points from 'POWER WINDOWS BUTTONS' to a set of four rectangular buttons. The control panel is mounted on a light-colored, textured surface, likely a car seat or door panel.
