SAHARA MOTORS DUBAI

The 2026 Toyota Hilux Double Cab Pickup GLXS-V is built to deliver a strong combination of power, practicality, and everyday comfort. It is equipped with a 2.7-liter 2TR-FE four-cylinder petrol engine with VVT-i, producing a maximum output of 164 HP at 5200 RPM and 245 Nm of torque at 4000 RPM. Paired with a 5-speed manual transmission and 4WD, the Hilux is designed to handle a wide range of road and working conditions. The Eco and PWR drive modes allow the driver to adjust the driving response according to the situation, while the rear differential lock provides additional traction when needed. With a fuel economy of 9.9 KM/L and an 80-liter fuel tank, this pickup is also suited for longer journeys and demanding daily use.

The interior includes fabric seats with front seat ventilation, wooden interior panels, front separate seats, front cup holders, and an overhead console. Automatic air conditioning helps maintain a comfortable cabin environment, while the glove box and power windows add everyday convenience. The 4.2-inch multi-information display keeps key driving information within view, and steering wheel-mounted controls allow easier access to vehicle functions. For connectivity and entertainment, the Hilux features an 8-inch Connected Display Audio touchscreen with Apple CarPlay, DAB radio, USB-A connectivity, and a 4-speaker audio system. A start/stop button, sliding back window, front passenger door lock, power side mirrors, side steps, and a bed liner further add to its practicality.

The exterior of the 2026 Toyota Hilux GLXS-V comes with 17-inch black wheels and 265/65R17 tyres, while the front steel bumper, mud guards, side steps, and bed liner support its practical character. LED headlamps, LED fog lamps, and LED rear lamps provide modern lighting, while the stop lamp on the deck door adds visibility. For safety and driver assistance, the Hilux is equipped with Blind Spot Monitor, cruise control, a rear camera, airbags for the driver, front passenger, and driver knee, ABS, EBD, Vehicle Stability Control, Hill-start Assist Control, and Tyre Pressure Warning System. With seating for five passengers and a robust 4WD configuration, the 2026 Toyota Hilux Double Cab Pickup GLXS-V offers a practical balance of performance, comfort, utility, and safety for international buyers.
